PROFESSIONAL SUMMARY

SEO specialist with 2.5 years of experience. In my current role I have worked on 100+ client projects and 50+ website audits, on my own and with the team. My work covers technical SEO, content built on search intent, and Answer Engine Optimization (AEO) and Generative Engine Optimization (GEO): across those projects, 500+ client keywords now rank on page one and 1,000+ queries show client content in Google AI Overviews and citations. I hold a B.Tech in Computer Engineering and have worked as a React.js developer, which helps when working with developers on technical fixes. Looking for a remote SEO role.

EXPERIENCE

SEO & Digital Marketing Specialist

Jan 2026 to Present

- Worked on 100+ client projects and 50+ website audits, some on my own and some with the team, covering on-page SEO, content quality, internal links, crawl health, Core Web Vitals and page speed.
- Across those projects, 1,000+ keywords optimised: 500+ now rank on page one and 100+ sit in positions 1 to 3.
- AEO and GEO work: 1,000+ queries now show client content in Google AI Overviews and citations.
- With the team, created and added 500+ pages and 1,000+ blogs and articles to client sites, planned from search intent and the questions people ask on Google and in AI tools.
- Use Claude AI, ChatGPT and AI agents to automate keyword clustering, meta tag generation, schema markup drafts and monthly ranking reports.
- Technical SEO: add FAQ, Article and HowTo structured data, clean up canonical tags, fix duplicate content and improve internal linking. Results are tracked in Google Analytics 4 and Search Console.

SEO Analyst

Jul 2025 to Dec 2025

- In-house role as the only person handling SEO and site maintenance for the company's 80+ websites.
- Did the on-page optimisation, Google Search Console monitoring and website updates myself, with basic IT server tasks alongside.

React.js Frontend Developer (Intern)

Mar 2025 to May 2025

- Built responsive UI screens in React.js and integrated REST APIs with the backend team.

React & React Native Developer (Intern)

Jul 2024 to Dec 2024

- Built reusable UI components, Redux app state and React Native mobile UI on production projects.

SEO Executive (Part-time)

Sep 2023 to Jun 2024

- Part-time alongside my B.Tech. Learned SEO from the basics here and handled the off-page work: link building and keyword research, plus email marketing campaigns and social media posting.

PROJECTS

Phosis Mobile App (React Native): Built the full UI with React Native and Redux, with API integration.

Personal Projects: A Twitter-style social app, a movie trailer app on a third-party API, and small Node.js and MySQL backends with Recharts.
